

Lucien Andrej Haeller

Nationality: Swiss

August 22, 2022

email: contact.haeller@gmail.com

Summary

As an existentialist I'm concerned with fighting climate change by sustainable means. During my time at Siemens, I've learned to practice software development with a customer-focus. I am well-versed in negotiating with all kinds of stakeholders. My studies in information science have taught me how to deliver information and design user-centered solutions.

Professional History

Siemens Ltd.
